WHITEHORSE NEWS –April 2009

Northern Territory upgrade

The strong growth of our Northern territory client base has persuaded us to establish a more permanent base that also provides accommodation for extra staff from interstate to supplement our NT resident staff when required.

From April, we will operate from a pleasant CBD building in Woods St Darwin, a short walk from our previous rented offices, but with great views and much improved parking facilities!

As our staff are out of the office a lot of the time, we suggest that a call to Ana Govan on 042 883 6405 may be a better bet than calling the office number.

Publications

Some new publications have been added to our downloadable publications. Just go to <http://www.whitehorsestrategic.com/cms/index.php/whitehorse/publications/> and you can download:

More Mentions in Dispatches

We mentioned last year the “Gershon” Review of the Australian government’s use of information and communication technology, released by the Government in August 2008.

The Gershon review referenced the **Centre for Innovative Industry Research Inc.** August 2008, ICT skills forecast project. First report: Quantifying current and forecast ICT employment.

So far this year, the same report has been cited by IBSA (Innovation and Business Skills Australia), in their publication “Environment Scan 2009”, dealing with skills needs in the ICT, business services, finance, cultural, educational, printing and graphic arts sectors.

Other reports to which Whitehorse staff have contributed, have been cited by TasICT, the Tasmanian ICT industry organization, and the Tasmanian Treasurer. Some of the reports concerned are in the download list,
